

TRAINING FROM THE BACK OF THE ROOM

TBR PRACTITIONER

CAPE TOWN & JOHANNESBURG

ENHANCE YOUR SKILLS IN CREATING OUTSTANDING TEAM SESSIONS

Are you a Scrum Master, coach, facilitator, instructor, trainer, or teacher that is interested in understanding how the human brain really learns by exploring current 'cognitive neuroscience' - the brain science behind all effective instructional design and human learning? Are you ready to engage and inspire your team with brain-based learning? If your answer is yes to the above, then join the 2-day globally popular, skills-building 'training from the BACK of the room practitioner' course.

You can expect a highly interactive and fun 2-days training where you will explore six powerful learning principles based on the best from neuroscience. You will be able to apply these principles every time you train, facilitate, instruct, or coach others. Furthermore, the training will equip you with dozens of interactive instructional strategies, ideas, exercises and resources that you can implement straight away and help make your sessions memorable and outstanding.

You will receive a 55-page resource workbook that is only available by attending the course, as well as copies of Sharon Bowman's best-selling books "Training from the BACK of the Room!" and "Using Brain Science to Make Training Stick".
